Slimline - extra-thin backgrounds

The slim seamless aquarium backgrounds

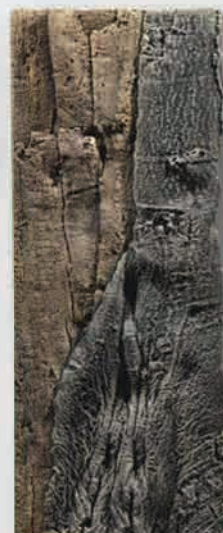

Slim rocky riverscapes and fascinating driftwood biotopes in the background that are so typical of the Amazon give your aquarium a unique look without overshadowing the aquarium layout. Our Slimline backgrounds have multiple uses and blend in with every kind of layout and biotope. Three different elements, which can be combined just as you like, result in a seamless, well-structured and slim background with a beautiful 3D effect. The overlapping edges cover the seams between the elements - for a seemingly endless aquarium background.

Modules / Rocks

For the creation of individual aquarium and terrarium layouts

This series contains various rocks, available in many sizes and shapes, enabling you to design your very own, individual aquarium background with these modular rocks - or even build caves. Our modular rocks come in especially handy when your aquarium is of an unusual size or form, for very large tanks, or as an addition to other backgrounds.

Module A: 28,35 x 17,72 x 7,87"
(72 x 45 x 20 cm)

Module B: 30,71 x 9,84 x 11,42"
(78 x 25 x 29 cm)

Module C: 11,81 x 6,69 x 18,90"
(30 x 17 x 48 cm)

Module E: 23,62 x 18,50 x 4,33"
(60 x 47 x 11 cm)

The modules C and T have been designed as filter modules, with an integrated water inlet. The open-topped filter modules are mounted in the tank free-hanging. Simply fill with filter media and insert a pump.

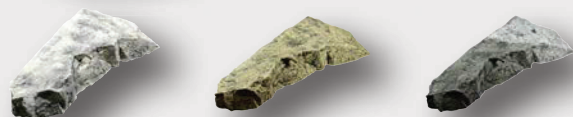

These modules are also great for holding strong powerhead pumps, and they can be equipped with a magnetic holder so they can be mounted in the tank later on.

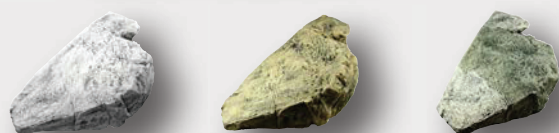

Module F: 25,60 x 19,69 x 3,94"
(65 x 50 x 10 cm)

Module G: 31,50 x 15,00 x 4,33"
(80 x 38 x 11 cm)

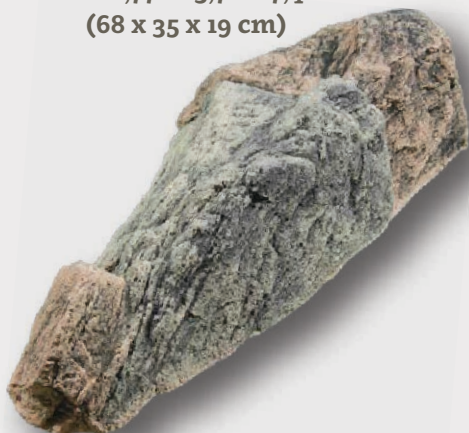

Module H: 31,50 x 16,54 x 9,45"
(80 x 42 x 24 cm)

Module L: 19,69 x 17,72 x 4,33"
(50 x 45 x 11 cm)

Module M: 26,77 x 13,78 x 7,48"
(68 x 35 x 19 cm)

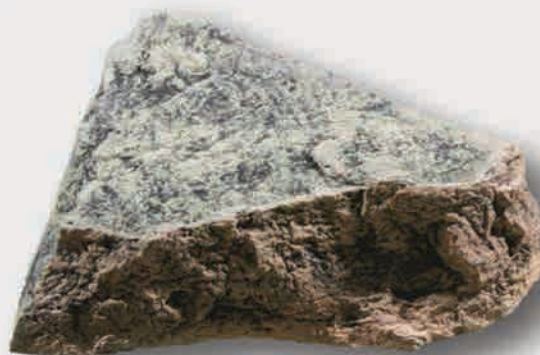

Module N: 20,87 x 15,75 x 3,54"
(53 x 40 x 9 cm)

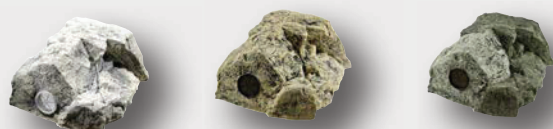

Module O: 18,50 x 15,00 x 6,69“
Module O: 47 x 38 x 17 cm

Module U: 13,78 x 9,84 x 4,33“
Module U: 35 x 25 x 11 cm

Module T: 11,81 x 6,69 x 13,39“
(30 x 17 x 34 cm)

Ammonite: 12,99 x 11,81 x 3,15“
(33 x 30 x 8 cm)

Inlet strainer ø 2,36“
(ø 6 cm)

Reef

Backgrounds for marine aquariums

The BTN Reef background looks perfectly natural, with overhanging rocks and ledges - the ideal background for a reef tank. Unsightly pumps, tubing and cables can easily be hidden behind it. Corals and coralline algae start colonizing the Reef background quickly, and it resists algae eaters such as doctor fish, snails and crustaceans.

Amazonas

Aquarium backgrounds for rainforest biotopes

Our Amazon backgrounds have been modeled on amazing, real 3D landscapes. Driftwood and tree stumps play a very important role in the natural aquatic biotopes in the region. The Amazon in the north of South America is home to numerous popular aquarium fish. We modeled our fascinating underwater landscapes on the typical biotopes of the region. The Amazonas backgrounds by Back to Nature unite driftwood, tree stumps and natural rock formations in intricate designs, the very picture of nature.

Giant Wood Roots & Rocks

For large aquariums

For landscaped gardens, large aquariums and terrariums

Tree root and rock modules for the creation of authentic underwater landscapes and jungle vivaria. Accurate in every detail, these hand-made large modules are characterized by low weight, minimum water displacement and a very long useful life. Unlike natural wood, which rots away and adds a yellowish stain to the water, the tree roots and rocks made by Back to Nature do not influence the water parameters at all.

Amazonas root „L“

Amazonas root „XL“

Our natural-looking rocks are lightweight and can easily be used in aquaria and terraria as well as in gardens. The material is easy to cut, and the rocks can be mounted by glueing or screwing. All our Giant Rocks are hollow, which accounts for a low weight and minimal water displacement. The rocks are available in the following colors: White Limestone, Red Gneiss, Sand, Basalt/Gneiss and River.

Giant root 3

Giant root 5

Available in these colors:

White Limestone

Red Gneiss

Sand

River

Rocky & River

Rock backgrounds for aquariums and terrariums

Many popular tropical aquarium fish come from rocky underwater landscapes. Our Rocky and River backgrounds provide cichlids, catfish, tetras and other aquarium fish with a naturally structured habitat. In combination with pieces of rock, driftwood and aquatic plants you can create highly attractive underwater landscapes.

Tanganyika / Malawi

3D aquarium and terrarium backgrounds

Lake Malawi and Lake Tanganyika are home to many popular, very colorful cichlids. The transitional shallow-water zone with sandy areas and steep rock walls, or rocky biotopes near the shore or deep-water biotopes - with the backgrounds "Malawi" and "Tanganyika" you can create underwater habitats with a captivating 3D effect.

Rocky Juwel

Two-piece

3D aquarium and terrarium backgrounds in two pieces

The "Rocky Juwel" background has its very own, characteristic charm. It is a little flatter than the backgrounds "Malawi" and "Tanganyika", and therefore suits smaller tanks especially nicely.

Article ID	EAN	Description	in cm
03000020	7350034903444	Background Rocky Juwel L: 47,24 x H: 18,50"	L: 120 x H: 47 cm
03000021	7350034903468	Background Rocky Juwel L: 39,37 x H: 18,50"	L: 100 x H: 47 cm
03000022	7350034903482	Background Rocky Juwel L: 39,37 x H: 16,54"	L: 100 x H: 42 cm
03000023	7350034903505	Background Rocky Juwel L: 31,50 x H: 16,54"	L: 80 x H: 42 cm

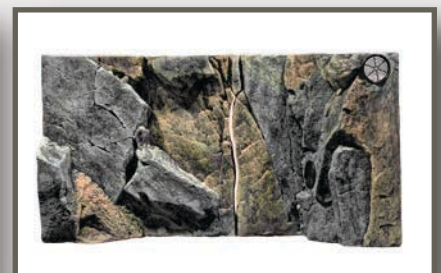

"Orinoco" and "Rocky Juwel" are flat, two-piece backgrounds that can be easily mounted in aquaria with one or several braces.

The backgrounds are put together after being placed in the tank, and then they are glued in.

On the right side, both backgrounds have a large compartment that can hold the aquarium equipment, with an integrated water inlet and outlet. This compartment is roomy enough for large internal filters, heaters and other visually less than attractive technical components.

The large filter compartment can easily be turned into a large biological filter.

The backgrounds have been designed for standard aquaria with the dimensions of 31,50 x 15,75" (80 x 40cm) to 47,24 x 19,69" (120 x 50cm).

Orinoco Juwel

Two-piece

3D aquarium and terrarium backgrounds in two pieces

The "Orinoco Juwel" background is quite flat and suits modern, less bulky aquarium furniture very nicely. Even though this background is slim and requires only little space in the tank, you can still fit the filter and the heater in a larger compartment at the corner. This background comes in two pieces, which makes the installation very easy.

Mini Amazonas & Rocky

Aquarium backgrounds for smaller tanks

These backgrounds were especially designed for small standard tanks with a footprint of 23,62 x 11,81" (60 x 30cm) to 23,62 x 15,75" (60 x 40cm) and a height of 11,81 to 13,78" (30 to 35cm). They are ideal for nano-themed tanks and dedicated aquariums.

For 23,62" (60cm) tanks
